Graycon Building Group is a full-service construction company in Wichita, Kansas. We are passionate about building trust with our clients while creating a successful construction experience that helps our customers achieve their future goals.

Preconstruction

Graycon Building Group staff accurately survey the entire project allowing for comprehensive and informed decision-making every step of the way.

Construction

As the general contractor it is our duty to maintain quality craftsmanship while meeting your budget and expectations.

We accurately translate the initial design into a completed and functional building by clearly communicating with the architect and our customer.

Construction Management

Graycon's construction management experience enables us assist with all aspects of the job. Our core construction management services include: project planning, cost estimating/management, contract management, project management, quality control and safety.

Design-Build

We work directly with the owner to provide building design and construction services. With both services under one roof, we create a more efficient build. One company, one contract, one cohesive workflow from initial concept to a finished project.
